

## About Our Tipi Style Event Tents

Our tipi style tents have their roots in the traditional nordic Kåta tents used by the Sami people of northern Europe. The tents are conical in shape with sturdy earth toned canvas wrapped around natural timber poles reaching 24 feet at the peak. They are made to withstand the elements with high quality weatherproof and flame retardant canvas.

The best part about adding these spacious tents to your event is their versatile design. Multiple tents can be linked together with walls up, down, or a combination of the two, which makes them the perfect option for any event during any season. With the walls raised, they provide a spacious, airy event space during warmer months, and with the walls down they offer a cozy venue perfect for chillier months.

Whether you are hosting a corporate retreat, festival or a beautiful outdoor wedding celebration, with our tipi style tents you can create a unique and stunning venue for your guests that is bound to be unforgettable!

## Giant Tipi Style Tents

These tents can be pitched separately or together to seat up to 160 people. They are 24' tall, and 34' in diameter with the sides down, or 43' in diameter with the sides up. They do well in any weather, and can be heated.
