

GLAMPING BATH SUITE™

By Stout Tent

602-845-0609

HOT SHOWERS. FLUSHING TOILETS.

Designed and manufactured by Stout Tent, right in Phoenix, AZ. The Glamping Bath Suites complete the Glamping experience.

The Suites sit on a 12" high wooden platform, enclosed by our Safari Tent. Total space is 12' X 10'. Shower floor is slatted Redwood.

These bathrooms can grow with you. You can set them up completely off the grid! NO water, sewer, or power hook up needed. Yet you maintain the ability to convert to on-the-grid solutions if and when they become available to you.

Promote endless hot water, a flushing toilet, and a changing area with enough room for a small bridal party to get ready. Guests can relax and fully enjoy whatever occasion brought them out to experience GLAMPING.

Showers run with an **on demand propane hot water** heater. Delivers steaming hot water almost immediately to your guests.

Customizations Available:
Rain Shower Head; Water Conservation Shower Pull

Classic Pedestal Sink provides the **comfort of home** with hot & cold water for hand washing & teeth brushing. 20" White Mirror above sink.

Customizations available:
Sink Cabinet; Water conservation faucet; Mirror Upgrades.

Full flushing porcelain toilet. Off the grid black tanks hold 70 flushes before service, or incorporate to septic for unlimited flushes. Compatible with composting toilet.

Customizations: Low water usage; Pedal flush; Toto toilet

Round trip mileage X .57 + \$1,000 Truck rental.

ORDERS & DELIVERY

Glamping Bath Suites are made to order. Because it is an extensive and time consuming process, we developed a system to let us offer our clients a discounted price by blocking out production dates.

ORDER by January 1st for DELIVERY in MARCH. (Mileage charge from Phoenix, AZ)
ORDER by May 1st for DELIVERY in JULY. (Mileage charge from Vermont)

Propane Heater
for Hot Water

300 Gallon Bladder

275 Gallon Water Tank

HOW IT WORKS

WATER

Water can be provided 1 of 2 ways. If there is a hose bibb on the property, and within reach of the bathroom location, you can hook it up directly to the bibb.

If there is no hose bibb, you can use a 300 Gallon Bladder or 275 Gallon Water Tank and subcontract a water truck to come fill it.

POWER & WASTE

The unit is typically lit with a battery powered lantern, and the pump is powered by battery, or a solar charger if preferred.

Waste is collected in a black tank which will require service, or the unit can be directly connected to the sewer/septic.

DID YOU KNOW?

- 85% of customers inquire about bathrooms when searching for Camping or Glamping Accommodations.
- Properties with showers and flushing toilets are able to charge higher nightly rates and book more consistently.
- Should you need permitting for your site, Glamping Bath Suites are considered temporary structures.
- Glamping Bath Suites can be transported on a standard 26' Box truck.
- Suites are Modular Units and can be relocated as often as needed.
- Because they're modular, you can build a shower only or toilet only unit!
